

Dear Hiring Manager,

I am excited to express my interest in joining your team. As an adaptable and driven individual, my journey has been shaped by a relentless pursuit of growth, leadership, and a deep fascination with technology and innovation. **Moving from India to the U.S.** for my undergraduate studies required me to quickly adapt to new environments, cultures, and challenges honing my **problem-solving** skills and resilience.

Throughout my time at Texas Christian University, I have embraced opportunities to **lead** and make meaningful contributions. My work in TCU Housing, where I have been promoted each year to my current role as **Community Manager**, has taught me to thrive in **high-pressure environments** and effectively **manage a team of six Community Assistants**. These roles have developed my strategic thinking, resourcefulness, and ability to bring out the best in others. Beyond my roles in Housing, I have held leadership positions in several clubs and organizations during high school and college. I was **captain** of an intraschool cricket team, and I even selected players for the junior team, gaining valuable experience in decision-making and mentorship. My academic journey has been equally diverse, including positions as an **Intramural Sports Officiator, Grader for Calculus 1, and Teaching Assistant for five Computer Science classes**.

My **two internships at Qualcomm**, where I worked in the summers of 2023 and 2024, further solidified my passion for technology. As part of the **Intern Committee**, I collaborated with peers to plan and organize intern events, enhancing my teamwork and organizational skills. Moreover, I have developed several **AI projects**, including a **patent classification model** and an **OpenCV/Mediapipe-based ASL-to-English translator**, which have deepened my understanding of machine learning and computer vision technologies. Additionally, I have worked on various projects with professors, expanding my knowledge and refining my analytical and creative thinking abilities.

I am deeply interested in sports, the gym, music, and especially technology in all its forms. When I'm not enjoying nature or listening to music, I immerse myself in exploring the latest developments in science and tech. My **curiosity and passion for learning** drive me to constantly seek new knowledge and improve myself in all endeavors. I am eager to bring my diverse skill set, enthusiasm, and commitment to excellence to your team. I am confident that my adaptability, leadership, and dedication will make a valuable contribution to your organization. Thank you for considering my application. I look forward to the opportunity to discuss how I can support your team's success.

Sincerely,  
Aaryan Dehade
